SYLC/09

Remarks

Applicant is submitting concurrently herewith, a terminal disclaimer referencing U.S. Patent No. 6,324,404 cited in the Examiner's double patenting rejection. As this disclaimer obviates the issues of double patenting raised by the Examiner, allowance of claims 66-74 is earnestly requested.

Applicant is adding, by this paper, new claims 75-102 directed to obtaining exact geographic location for a mobile unit that communicates with a cellular network via a cell site chosen without use of exact geographic location, e.g., based upon traditional methods such as signal strength. This permits subsequent use of that exact geographic location for purposes such as provisioning emergency services, rate, message unit, tax, billing, location or other proper services on calls already in progress.

A fee for 17 excess claims and 6 excess independent claims is due and authorization to charge deposit account no. 23-3000 is hereby given.

The Examiner's attention is directed to the Information Disclosure Statement being submitted herewith with hard copies of the required patents being sent via U.S. Mail. The U.S. Patent references cited are from the parent applications for this application as well as related applications in the same family. A fee of \$180.00 for the Information Disclosure Statement is due and authorization to charge deposit account no. 23-3000 is hereby given.

If any petition for extension of time is necessary to accompany this communication, please consider this paper a petition for such an extension of time, and apply the appropriate extension of time fee to Deposit Account 23-3000. If any other charges or credits are necessary to complete this communication, please apply them to Deposit Account 23-3000.

Respectfully submitted,

Thomas W. Humphrey
